

Type AG-8

Filter Holding Frames and Fasteners

Type AG-8 Filter Holding Frames

The Type AG-8 filter holding frames are designed to form strong, long-lasting filter banks. When used in combination with the AG-8 family latches and Airguard filters, virtually any type of air filtration system can be designed and built. The Type AG-8 frame is the direct equivalent of the Farr Type-8 frame.

Type AG-8 Features

- 16 gauge galvanized steel construction
- All welded seams
- Pre-punched mounting holes to assemble filter banks
- Two sets of knockouts to attach latches to hold any filter or combination of filters
- Neoprene gasket around the inside flange to prevent bypass

<i>Actual Dimensions (In.)</i>			
<i>Model #</i>	<i>Width</i>	<i>Height</i>	<i>Depth</i>
<i>AG8-310</i>	<i>12</i>	<i>24</i>	<i>3</i>
<i>AG8-301</i>	<i>16</i>	<i>20</i>	<i>3</i>
<i>AG8-302</i>	<i>16</i>	<i>25</i>	<i>3</i>
<i>AG8-303</i>	<i>20</i>	<i>20</i>	<i>3</i>
<i>AG8-311</i>	<i>20</i>	<i>24</i>	<i>3</i>
<i>AG8-304</i>	<i>20</i>	<i>25</i>	<i>3</i>
<i>AG8-305</i>	<i>24</i>	<i>24</i>	<i>3</i>

Special size frames and 304 stainless steel construction are available.

Type AG-8

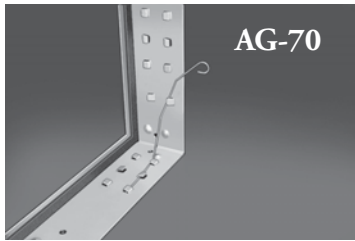

Filter Holding Frames and Fasteners

Type AG-8 Latches

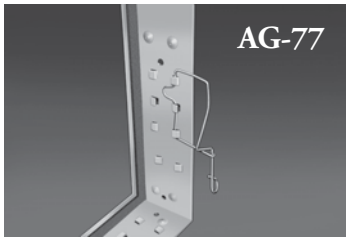

Airguard offers a wide variety of latches to secure filters into a Type AG-8 holding frame, from disposable panel filters to 12" box style high efficiency filters, with or without a prefilter.

The latches attach to one of two sets of knockouts that best fit the depth of the filter. It is recommended to use 4 latches per frame.

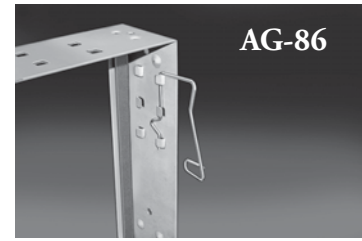

For any questions concerning the proper latch applications, please contact Airguard or your local distributor.
