**The Ultimate Resin:** Our patented resin provides the strength and flexibility to permanently repair any cracks and voids. The resin is able to cure in the presence of water and eliminates the possibility of being washed away.

- Odorless and ideal for working in confined spaces
- Outstanding bonding properties to most materials
- Excellent chemical resistance compared to other resins
- Non-flammable, making it ideal for airports, hospitals, etc.
- Non-hazardous, so no transport or disposal problems

## Only Simple, Standard Equipment Required
